Mrs. Joan Levine  
Bureau of Vital Records  
State Dept. of Health  
Tower Bldg., Empire State Plaza  
Albany, New York 12237

Dear Mrs. Levine:

We are writing to ask you to assist us by searching your records for the information indicated on the enclosure.

The Center for Human Radiobiology, supported by the U. S. Energy Research and Development Administration, is conducting a long-range study of persons who have been exposed to radioactive materials. The purpose is to increase our basic information about the toxicity of radioactive substances. Certain unexposed persons are also being followed; these serve as controls.

For our research purposes, we wish to obtain the best possible photocopies of original records, including the medical portions of death records, and also any amendments. The copies need not be certified.

Please bill us for this service, as in the past. We assure you that all records of the Center are treated as confidential. For your convenience, we are including an addressed mailing label.

Very truly yours,

Harvey A. Schultz  
Curator of Records
